- A. Create - Table
- B. Create - Layer
- C. Create - Section - Table
- D. Create - Layout Region - Table

Answer: A

QUESTION: 4

Cheryle would like to have access to her mail file while she is traveling and disconnected from the network. Once she arrives at her destination, she wants to connect to the network and

synchronize her mail file updates with the server version of her mail file. How can she accomplish this?

- A. Create a local copy of her mail file.
- B. Create a local replica of her mail file.
- C. Create a local mirror copy of her mail file.
- D. Create a local synchronized copy of her mail file.

Answer: B

QUESTION: 5

Molly has a Notes application that is used by employees in Europe and Japan. Each group of employees has a server that is in their geographical location. Molly needs to have versions of her application in both locations for efficient access, and the application data and design must stay synchronized in both locations. How can Molly accomplish this?

- A. Create a copy of the database in each location by using the menu option File > Application > New Copy.
- B. Create a replica of the database in each location by using the menu option File > Replication > New Replica.
- C. Create a mirror of the database in each location by using the menu option File > Application > New Mirror.
- D. Create a synchronized copy of the database in each location by using the menu option File > Synchronization > New Copy.

Answer: B

QUESTION: 6

Tony wants to create a duplicate of the Video application. He wants to keep a version of the data on the same server as the production application but does not want any new documents or document modifications to be replicated into his new database once he creates it. Which one of the following should Tony do to create his archive?

- A. Create a new copy of the database.
- B. Create a replica copy of the database.
- C. Use Windows Explorer to create a copy of the database file.
- D. Create a replica copy of the database and disable replication on the database properties.

Answer: A

QUESTION: 7

Which one of the following database elements is NOT updated when the DESIGN task is run?
