

310-015

SUN

Solaris 9 Sun Certified System Administrator Part

//

OfficialCerts.com is a reputable IT certification examination guide, study guides and audio exam provider. We ensure that you pass your 310-015 exam in first attempt and also get high scores to acquire SUN certification.

If you use OfficialCerts 310-015 Certification questions and answers, you will experience actual 310-015 exam questions/answers. We know exactly what is needed and have all the exam preparation material required to pass the exam. Our SUN exam prep covers over 95% of the questions and answers that may be appeared in your 310-015 exam. Every point from pass4sure 310-015 PDF, 310-015 review will help you take SUN 310-015 exam much easier and become SUN certified.

Here's what you can expect from the OfficialCerts SUN 310-015 course:

- * Up-to-Date SUN 310-015 questions as experienced in the real exam.*
- * 100% correct SUN 310-015 answers you simply can't find in other 310-015 courses.*
- * All of our tests are easy to download. Your file will be saved as a 310-015 PDF.*
- * SUN 310-015 brain dump free content featuring the real 310-015 test questions.*

SUN 310-015 certification exam is of core importance both in your Professional life and SUN certification path. With SUN certification you can get a good job easily in the market and get on your path for success. Professionals who passed SUN 310-015 exam training are an absolute favorite in the industry.

You will pass SUN 310-015 certification test and career opportunities will be open for you.

QUESTION: 1

In which situation will Solaris Volume Manager volumes continue to function normally in the event of the corruption of one copy of its state database?

- A. Solaris Volume Manager volumes will function normally if the master copy of the state database is not corrupted.
- B. Solaris Volume Manager volumes will function normally if the copy of the state database on the boot disk is available.
- C. Solaris Volume Manager volumes will function normally if no more than a single copy of the state database is corrupted.
- D. Solaris Volume Manager volumes will function normally if more than half of the copies of the state database are available.

Answer: D

QUESTION: 2

You have Solaris Volume Manager installed on your system and want to create your first metadevice. What initial action must you take?

- A. run a command to create the first state database
- B. run a utility to add a license to enable SVM for Solaris 9
- C. run a command to initialize the configuration metadevice
- D. run the vxinstall utility to initialize the volume manager software for use
- E. create a soft partition using the -s initialize option with the appropriate command

Answer: A

QUESTION: 3

You have two 50-MByte UFS file systems, one located on a single disk, and the other located on a RAID 1 mirror. Both file systems are full. The RAID 1 mirror uses a round-robin read policy. Statistically, which is true of the RAID 1 mirror when reading data?

- A. The mirror is faster.
- B. The mirror is slower.
- C. Round-robin read policies are not allowed.
- D. The mirror and single disk exhibit the same performance.

Answer: A

QUESTION: 4

Which command should be used to create a file system on a virtual volume (d0) under Solaris Volume Manager control?

- A. newfs /dev/rdisk/d0
- B. newfs /dev/rdisk/md/d0
- C. newfs /dev/md/rdisk/d0
- D. newfs -F sds /dev/rdisk/d0

Answer: C

QUESTION: 5

Interlace size is a tunable parameter associated with which three levels of RAID? (Choose three.)

- A. RAID 0
- B. RAID 1
- C. RAID 5
- D. RAID 0+1

Answer: A, C, D

QUESTION: 6

Solaris Volume Manager offers advantages over storing data in traditional disk slices. What are two of these advantages? (Choose two.)

- A. It facilitates the rotational interleaving of data.
- B. It enables the definition of disk usage patterns.
- C. It offers the possibility of significant performance improvement.
- D. It manages the data to ensure that disk failure does not automatically lead to data loss.

Answer: C, D

QUESTION: 7

What is the absolute path name of the configuration file from which the system reads its crash dump generation behavior at boot time?

Answer: /ETC/DUMPADM.CONF

QUESTION: 8

You are working on a system connected to the network. You are attempting to access a currently mounted NFS directory. Your system displays the message:

nfs mount: host1: : NFS: Service not responding nfs mount: retrying: /usr/share/man

What can you do to solve this problem?

- A. ensure that nfsd is running on the NFS server
- B. ensure that mountd is running on the NFS server
- C. send a HUP signal to inetd process on the NFS server
- D. send a HUP signal to the rpcbind process on the NFS server

Answer: A

QUESTION: 9

Which two are functions of an NFS client? (Choose two.)

- A. runs the nfsd daemon
- B. makes resources available over the network
- C. mounts remote resources across the network
- D. is configured using the /etc/dfs/dfstab file
- E. mounts a remote resource and uses it as though it were local

Answer: C, E

QUESTION: 10

You are working on a system connected to the network. You attempt to access a directory which you know is provided to your system using NFS, and which you have not accessed for some time. Your system displays the message:

stale NFS file handle

What is a possible cause of this problem?

- A. The lockd daemon on the local system is no longer running.
- B. The mountd daemon on the local system has out of date configuration information.
- C. The automountd daemon has not been informed of changes to the automount maps.
- D. The file or directory has been removed on the NFS server without the client's knowledge.

Answer: D

QUESTION: 11

You want to automatically mount an NFS resource. You also want to mount the NFS resource so that if the server becomes unavailable, and the client reboots, system initialization will continue without waiting for the resource to mount. Which mount option can be added to the client's /etc/vfstab file to achieve this?

- A. fg
- B. ro
- C. bg
- D. intr
- E. soft
- F. hard

Answer: C

QUESTION: 12

You are receiving error messages that the /lard file system is full. You check and see that it has a large file called swapfile. Your system has more than enough swap space. You suspect that the file is in use as swap space. Which sequence of commands confirms that the file was in use as swap space, and helps correct the file system problem?

- A. swap -r /lard/swapfile ; rm /lard/swapfile
- B. swap -l ; swap -d /lard/swapfile ; rm /lard/swapfile
- C. swap -l ; rm /lard/swapfile ; swap -d /lard/swapfile
- D. swap -l ; swap -r /lard/swapfile ; rm /lard/swapfile

Answer: B

QUESTION: 13

You have a system used for application development. The process app-rev23 owned by user

epiphylla terminates abnormally. Which two effects can the root user configure? (Choose two.)

- A. The process app-rev23 produces no core file at all.
- B. The process app-rev23 produces a core file without the string "core" appearing anywhere within the file name.
- C. The process app-rev23 produces a global core file readable by any user in a global /var/corefiles directory.
- D. The process app-rev23 produces a total of three core files, one in the current directory of the process, one in epiphylla's home directory, and one in a global /var/corefiles directory.

Answer: A, B

QUESTION: 14

The default run level is 3 and the host is configured as an NFS server with valid entries in /etc/dfs/dfstab. Which two command strings restart NFS services? (Choose two.)

- A. init 6
- B. pkill -HUP inetd
- C. /etc/init.d/nfs.server restart
- D. /etc/init.d/nfs.server stop;/etc/init.d/nfs.server start

Answer: A, D

QUESTION: 15

The auto_home automount map is an example of which type of map?

- A. xfn
- B. direct
- C. master
- D. generic
- E. indirect

Answer: E

QUESTION: 16

The /etc/dfs/dfstab file on your Solaris system contains the entries:

OfficialCerts.com Certification Exam Full Version Features;

- Verified answers researched by industry experts.
- Exams **updated** on regular basis.
- Questions, Answers are downloadable in **PDF** format.
- **No authorization** code required to open exam.
- **Portable** anywhere.
- 100% success **Guarantee**.
- **Fast**, helpful support 24x7.
