

920-450

Nortel

ES NetSight Atlas

OfficialCerts.com is a reputable IT certification examination guide, study guides and audio exam provider. We ensure that you pass your 920-450 exam in first attempt and also get high scores to acquire Nortel certification.

If you use OfficialCerts 920-450 Certification questions and answers, you will experience actual 920-450 exam questions/answers. We know exactly what is needed and have all the exam preparation material required to pass the exam. Our Nortel exam prep covers over 95% of the questions and answers that may be appeared in your 920-450 exam. Every point from pass4sure 920-450 PDF, 920-450 review will help you take Nortel 920-450 exam much easier and become Nortel certified.

Here's what you can expect from the OfficialCerts Nortel 920-450 course:

- * Up-to-Date Nortel 920-450 questions as experienced in the real exam.*
- * 100% correct Nortel 920-450 answers you simply can't find in other 920-450 courses.*
- * All of our tests are easy to download. Your file will be saved as a 920-450 PDF.*
- * Nortel 920-450 brain dump free content featuring the real 920-450 test questions.*

Nortel 920-450 certification exam is of core importance both in your Professional life and Nortel certification path. With Nortel certification you can get a good job easily in the market and get on your path for success. Professionals who passed Nortel 920-450 exam training are an absolute favorite in the industry. You will pass Nortel 920-450 certification test and career opportunities will be open for you.

QUESTION 1

Certkiller .com is installing a Communication Server (CS)1000E Rls. 4.0 in a new customer services office near their headquarters. The system will support 1200 IP telephones and 24 analog fax machines.

The system will use the Gigabit Ethernet WAN for networking the CS 1000E and the CS 1000M-SG at the main headquarters. Most calls to the PSTN will be routed via the WAN through the IP-attached CS 1000m-SG. The office will have six copper POTS trunks terminated locally for security and backup.

What is needed to install these trunks?

- A. A Media Gateway 1000T and a Universal Trunk Card.
- B. A Media Gateway 1000B and a Universal Trunk Card.
- C. A Vacant slot in one of the Media Gateway 1000E chassis and one Universal Trunk Card.
- D. A separate Media Gateway 1000E and a Universal Trunk Card because you can not mix line cards with trunk cards.

Answer: C.

QUESTION 2

Exhibit:

Building	A (Main)	B	C
Digital telephones	160	45	45
Analog telephones	24	8	8
IP telephones	120	50	50
Trunks	2 T1/E1 PRI to PSTN	4 analog backup	4 analog backup

Certkiller .com is installing a single Communication Server (CS) 1000Rls. 4.0 system within a campus location consisting of three building (A,B,C) that are connected via switched Gigabit Ethernet over dark multimode fiber, Telephone deployments are shown in the exhibit.

The customer wants to place two T1/E1 PRI trunks to the PSTN out of A and four backup analog trunks out of B and C (eight total). The customer will provide additional dark fiber and 100BaseT/Fiber Media Converters if needed.

What are the minimum system-level components required for building A?

- A. A CS 1000S system cannot be used for this solution.
- B. Call Server, Signaling Server and two Media Gateways with two Expanders.
- C. Call Server, Alternate Call Server, Signaling Server and two Media Gateways.

D. Call Server, two Signaling Server and two Media Gateways with one Expanders

Answer: B.

QUESTION 3

Certkiller .com with a communication server (CS) 1000 Rls. 4.0 system with 700 users wants to open a call center with 200 agents using symposium call server 4.2 These new calls center agents will use IP phone 2004 telephones and the site will be set up as branch office. For a call center application, non-blocking at the media cards (MC) is recommended.

What is the condition to ensure non-blocking at the media cards?

- A. The number of PRI channels must be greater than MC ports.
- B. The number of PRI channels and the number of ports on a MC must be the same.
- C. The number of registered active IP phone 2004 agents on a MC must exceed the number of ports on the card
- D. The number of registered active IP phone 2004 agents on a MC must not exceed the number of ports on the card.

Answer: B.

QUESTION 4

Exhibit

Poisson 1% blocking GoS	
Trunks	CCS
12	182
17	320
27	590
28	618
52	1322

Certkiller .com has two sits (Site A and Site B) and wants to deploy a communication Server (CS) 1000 Rls. 4.0 solution. The customer has 500 employees and needs 275 telephones to meet the system cut/over. They also require a poisson 1% blocking GoS (See exhibit). The estimated trunk CCS/T is 1.14 for a DID trunk group.

What is the total number of DID trunks required for cut/over

- A. 12 DID trunks
- B. 17 DID trunks
- C. 27 DID trunks
- D. 28 DID trunks
- E. 52 DID trunks

Answer: B

OfficialCerts.com Certification Exam Full Version Features;

- Verified answers researched by industry experts.
- Exams **updated** on regular basis.
- Questions, Answers are downloadable in **PDF** format.
- **No authorization** code required to open exam.
- **Portable** anywhere.
- 100% success **Guarantee**.
- **Fast**, helpful support 24x7.
