Nortel

Nortel Data Networking Technology

OfficialCerts.com is a reputable IT certification examination guide, study guides and audio exam provider. We ensure that you pass your 920-805 exam in first attempt and also get high scores to acquire Nortel certification.

If you use OfficialCerts 920-805 Certification questions and answers, you will experience actual 920-805 exam questions/answers. We know exactly what is needed and have all the exam preparation material required to pass the exam. Our Nortel exam prep covers over 95% of the questions and answers that may be appeared in your 920-805 exam. Every point from pass4sure 920-805 PDF, 920-805 review will help you take Nortel 920-805 exam much easier and become Nortel certified.

Here's what you can expect from the OfficialCerts Nortel 920-805 course:

- * Up-to-Date Nortel 920-805 questions as experienced in the real exam.*
- * 100% correct Nortel 920-805 answers you simply can't find in other 920-805 courses.*
- * All of our tests are easy to download. Your file will be saved as a 920-805 PDF.*
- * Nortel 920-805 brain dump free content featuring the real 920-805 test questions.*

Nortel 920-805 certification exam is of core importance both in your Professional life and Nortel certification path. With Nortel certification you can get a good job easily in the market and get on your path for success. Professionals who passed Nortel 920-805 exam training are an absolute favorite in the industry. You will pass Nortel 920-805 certification test and career opportunities will be open for you.

QUESTION: 1

A manufacturing company is building a new plant. The equipment in the plant has been known to cause interference with the network at other sites and they want to be sure that they choose a media that is resistant to electrical interference. Which type of cable should they use?

- A. Thick coaxial cable
- B. Fiber optic cable
- C. Unshielded twisted pair
- D. Plenum twisted pair

Answer: B

QUESTION: 2

A department was moved from one floor to another. When the department was on the old floor, the users connected through a mixture of 10 Mb hubs and 10/100 Mb switches. When the department was moved all the hubs were replaced by 10/100 Mb switches. Two of the users are reporting that the network is much slower on the new floor even though the hubs were replaced. You discover that the switch ports these users connect to were used to connect to the hubs and are manually configured for 10Mb half-duplex. The PCs were connected to the switch and were manually configured for 100 Mb full-duplex. What could have been done to avoid this issue?

- A. Auto-negotiation only needed to be enabled on the switch.
- B. Auto-negotiation should have been enabled on the switch ports and on the PCs.
- C. Auto-sensing only needed to be enabled on the switch.
- D. Auto-sensing should have been enabled on the switch ports and on the PCs.

Answer: B

QUESTION: 3

A corporation has decided to save money and buy remanufactured IP telephones. They purchased Phase 1 (One) IP telephones that do not support Power-over-Ethernet (PoE). The Ethernet Switches they purchased do supply PoE per the IEEE 802.3af specifications. Which statement regarding the Phase 1 IP telephones is true?

- A. They must be plugged into AC power outlets to function.
- B. They can use a power splitter to receive both power and data from the Ethernet Switch.

- C. They can use a power splitter to receive both power and data from the Ethernet Switch, but must also be attached to an AC outlet to boot and acquire an IP address.
- D. They must be plugged into AC power outlets to boot and acquire an IP address. After the telephone is operating, it can operate off the Ethernet Switch only.

Answer: B

QUESTION: 4

Which order is correct for these components in the Ethernet frame?

- A. Destination MAC address, source MAC address, length/type field, data, FCS
- B. Destination MAC address, source MAC address, data, length/type field, FCS
- C. Source MAC address, destination MAC address, length/type field, data, FCS
- D. Source MAC address, destination MAC address, data, length/type field, FCS

Answer: A

QUESTION: 5

Which statement about broadcast domains and collision domains is false?

- A. When a connection is Ethernet full-duplex, the collision domain only contains two devices.
- B. When a connection is Ethernet full-duplex, the broadcast domain only contains two devices.
- C. When a hub is used to connect devices, all ports are in the same collision domain but not in the same broadcast domain.
- D. When a switch with multiple VLANs is used to connect devices, all ports are in the same broadcast domain.

Answer: B

QUESTION: 6

Which function do Route policies on the Ethernet Routing Switch (ERS) perform?

- A. Route policies can flush and clear the IP routing table.
- B. OSPF redistribute function is used to propagate OSPF routes within a single area.
- C. RIP announce policies determine how RIP learned routes are represented in the routing table.
- D. BGP redistribute function may be used to advertise OSPF learned routes using BGP.

OfficialCerts.com Certification Exam Full Version Features;

- Verified answers researched by industry experts.
- Exams **updated** on regular basis.
- Questions, Answers are downloadable in **PDF** format.
- **No authorization** code required to open exam.
- **Portable** anywhere.
- 100% success **Guarantee**.
- **Fast**, helpful support 24x7.
