## SASInstitute

### *Sas webaf server-side application development*

*OfficialCerts.com is a reputable IT certification examination guide, study guides and audio exam provider. We ensure that you pass your A00-205 exam in first attempt and also get high scores to acquire SASInstitute certification.*

*If you use OfficialCerts A00-205 Certification questions and answers, you will experience actual A00-205 exam questions/answers. We know exactly what is needed and have all the exam preparation material required to pass the exam. Our SASInstitute exam prep covers over 95% of the questions and answers that may be appeared in your A00-205 exam. Every point from pass4sure A00-205 PDF, A00-205 review will help you take SASInstitute A00-205 exam much easier and become SASInstitute certified.*

*Here's what you can expect from the OfficialCerts SASInstitute A00-205 course:*

- \* Up-to-Date SASInstitute A00-205 questions as experienced in the real exam.*
- \* 100% correct SASInstitute A00-205 answers you simply can't find in other A00-205 courses.*
- \* All of our tests are easy to download. Your file will be saved as a A00-205 PDF.*
- \* SASInstitute A00-205 brain dump free content featuring the real A00-205 test questions.*

*SASInstitute A00-205 certification exam is of core importance both in your Professional life and SASInstitute certification path. With SASInstitute certification you can get a good job easily in the market and get on your path for success. Professionals who passed SASInstitute A00-205 exam training are an absolute favorite in the industry. You will pass SASInstitute A00-205 certification test and career opportunities will be open for you.*

**QUESTION 1**

An application has the following requirements:

The number of users is likely to grow rapidly.

There is a large number of users across multiple locations.

The application is dynamic and requires updates to be propagated quickly and easily.

There are a wide variety of client machines utilizing different hardware and software platforms.

Which of the following technologies satisfies the above requirements?

- A. SAS/AF application
- B. Java applet
- C. Java application
- D. Server-side Java application

Answer: D

---

**QUESTION 2**

Assume the necessary import statements have been defined.

The relevant portion of the servlet code is shown below:

```
20 PrintWriter out=response.getWriter();
21 Calendar c = Calendar.getInstance();
22 if (c.get(Calendar.DAY_OF_MONTH)==1)
23 {
24 String message="First Day of Month";
25 }
26 out.println(message);
```

When the servlet is compiled, the following error message is generated:

Line #26 cannot resolve symbol (variable message)

Which of the following describes why an error was generated at line 26?

- A. The PrintWriter class does not support the println() message.
- B. The println() method requires additional parameters.
- C. The message does not contain a value since it is not the first day of the month.
- D. The message is used outside the scope to which it was defined.

Answer: D

---

**QUESTION 3**

Which of the following adds a third-party jar file to the classpath of a single web application within a servlet container without modifying the classpath of other web applications?

- A. adding the jar file to the extensions directory of the Java Runtime Environment
- B. adding the classpath element to the WEB-INF/web.xml file for the web application
- C. adding the classpath in the web application's index.jsp file

D. adding the jar file to the WEB-INF/lib directory of the web application

Answer: D

---

**QUESTION 4**

The following JSP is created:

```
<html><body>
<script language="JavaScript">
function verify(_fName) {
if ( _fName.value.length < 1 ) {
alert ( "Enter a value for First Name");
_fName.focus();
return false;
}
return true;
}
</script>
<form insert attribute=value here>
First name:
<input type="text" name="firstName">
<input type="submit" value="Enter">
</form>
</body></html>
```

An alert window needs to be opened when no value is specified for the first name and the push button is specified.

Which of the following needs to be included on the form open tag to generate the alert window?

- A. onsubmit="verify(firstName)"
- B. onenter="verify(firstName)"
- C. onenter="verify(\_fName)"
- D. onsubmit="verify(\_fName)"

Answer: A

---

**QUESTION 5**

Assume the necessary import statements have been defined.

The relevant portion of servlet code is shown below:

```
17 public void doPost(javax.servlet.http.HttpServletRequest request,
18 javax.servlet.http.HttpServletResponse response)
19 throws javax.servlet.ServletException,java.io.IOException
20 {
21 // Note: Add User DO_POST code here
22 Rocf rocf = new Rocf();
23 session.setAttribute("rocf", rocf);
24 Connection connection1 = new Connection();
```

## OfficialCerts.com Certification Exam Full Version Features;

- Verified answers researched by industry experts.
- Exams **updated** on regular basis.
- Questions, Answers are downloadable in **PDF** format.
- **No authorization** code required to open exam.
- **Portable** anywhere.
- 100% success **Guarantee**.
- **Fast**, helpful support 24x7.
