If you use pass4sureofficial MB6-820 Certification questions and answers, you will experience actual MB6-820 exam questions/answers. We know exactly what is needed and have all the exam preparation material required to pass the exam. Our Microsoft exam prep covers over 95% of the questions and answers that may be appeared in your MB6-820 exam. Every point from pass4sure MB6-820 PDF, MB6-820 review will help you take Microsoft MB6-820 exam much easier and become Microsoft certified. All the Questions/Answers are taken from real exams.

Here's what you can expect from the Pass4sureOfficial Microsoft MB6-820 course:

- * Up-to-Date Microsoft MB6-820 questions taken from the real exam.
- * 100% correct Microsoft MB6-820 answers you simply can't find in other MB6-820 courses.
- * All of our tests are easy to download. Your file will be saved as a MB6-820 PDF.
- * Microsoft MB6-820 brain dump free content featuring the real MB6-820 test questions.

Microsoft MB6-820 certification exam is of core importance both in your Professional life and Microsoft certification path. With Microsoft certification you can get a good job easily in the market and get on your path for success. Professionals who passed Microsoft MB6-820 exam training are an absolute favorite in the industry. You will pass Microsoft MB6-820 certification test and career opportunities will be open for you.

Question: 1

You work in an International company which is called Luxwet. And you're in charge of the network of your company. Now you work as an installer intending to install multiple application instances. So how is this done in Microsoft Dynamics AX 2009?

- A. There cannot be multiple Application instances on the same server.
- B. The installer will need to create a separate logical drive for each application instance.
- C. The instances can be installed on the same machine, but the installer must provide a separate root directory for each application.
- D. The installer supplies an application instance name for each instance. Then, all applications are installed in the same root folder.

Answer: D

Question: 2

You work in an International company which is called Luxwet. And you're in charge of the network of your company. Now you work as an implementer intending to connect a client to a different Application Object Server instance by using the Microsoft Dynamics AX Client Configuration utility. In order to access the client configuration utility, what user group must the implementer be part of?

- A. Guests
- B. All users
- C. Power Users
- D. Administrators

Answer: C, D

Question: 3

You work in an International company which is called Luxwet. And you're in charge of the network of your company. In order to improve the total cost of ownership for Microsoft Dynamics AX customer, how has the installation changed?

- A. A patch file is automatically created corresponding to each installer file making it easier to patch the system.
- B. Each component of the Microsoft Dynamics AX system has its own installer.msi file) making it easier to troubleshoot installations.
- C. All components including the Application object Server (AOS) reside in a single components (.msi) file so that all components can be patched by a single patch
- D. msp) file.
- E. All components, other than the Application Object Server (AOS), reside in a single components installer (.msi) file so that most components can be patched by a
- F. msp) file.

Answer: D

Question: 4

You work in an International company which is called Luxwet. And you're in charge of the network of your company. When the Application Object Server user account is created in the database, to what roles is it assigned? (choose more than one)
