Design & Implementation of HP SIM for ISS Solutions

Visit: <http://www.pass4sureofficial.com/exams.asp?examcode=HP0-S14>

Pass4sureofficial.com is a reputable IT certification examination guide, study guides and audio exam provider, we not only ensure that you pass your HP0-S14 exam in first attempt, but also you can get a high score to acquire HP certification.

If you use pass4sureofficial HP0-S14 Certification questions and answers, you will experience actual HP0-S14 exam questions/answers. We know exactly what is needed and have all the exam preparation material required to pass the exam. Our HP exam prep covers over 95% of the questions and answers that may be appeared in your HP0-S14 exam. Every point from pass4sure HP0-S14 PDF, HP0-S14 review will help you take HP HP0-S14 exam much easier and become HP certified. All the Questions/Answers are taken from real exams.

Here's what you can expect from the Pass4sureOfficial HP HP0-S14 course:

- * Up-to-Date HP HP0-S14 questions taken from the real exam.
- * 100% correct HP HP0-S14 answers you simply can't find in other HP0-S14 courses.
- * All of our tests are easy to download. Your file will be saved as a HP0-S14 PDF.
- * HP HP0-S14 brain dump free content featuring the real HP0-S14 test questions.

HP HP0-S14 certification exam is of core importance both in your Professional life and HP certification path. With HP certification you can get a good job easily in the market and get on your path for success. Professionals who passed HP HP0-S14 exam training are an absolute favorite in the industry. You will pass HP HP0-S14 certification test and career opportunities will be open for you.

Question: 1

You want to deploy the ProLiant Support Pack to a remote ProLiant server by using HP SIM. The remote server has no management agents installed yet. How should you proceed?

- A. Install OpenSSH first to establish the trust and then use the Install Software and Firmware option.
- B. Create a trust relationship between the remote server and the CMS and then use the Install Software and Firmware option.
- C. Create a user on the remote server known by HP SIM and then use the Install Software and Firmware option.
- D. Use the Initial ProLiant Support Pack Install and provide the login credentials for the remote server in the setup wizard.

Answer: D

Question: 2

Which protocol does HP SIM use to retrieve system software and firmware inventory from HP servers?

- A. MIF
- B. SNMP
- C. SMTP
- D. OpenSSH

Answer: B

Question: 3

When a system administrator attempts to update the firmware on a p-Class GbE2 interconnect switch using HP SIM, the update is unsuccessful. What could be the reason?

- A. The HP SIM server is running on Linux.
- B. The VCA agent on the p-Class GbE2 interconnect switch is not active.
- C. The p-Class GbE2 interconnect switch is not licensed for firmware upgrades.
- D. The p-Class GbE2 interconnect switch can only be upgraded using the serial connection.

Answer: A

Question: 4

What is used by the version control feature in HP SIM to perform software and firmware updates?

- A. HP Management agents
- B. Version Control Agent (VCA)
- C. Version Control Update Manager
- D. Version Control Repository Manager (VCRM)

Answer: B

Question: 5

When a system administrator creates a task to update software and firmware on systems in HP SIM running Windows, what happens?

- A. HP SIM sends update software commands to the VCRM on the target systems. The VCRM contacts the VCA.
- B. HP SIM contacts the HP Management Agents on the target systems who take care of the update process.

- C. HP SIM sends update software commands to the VCA on the target systems. The VCA contacts the VCRM.
- D. HP SIM sends update software commands to the VCA on the target systems. The VCA contacts the HP Management agents to start the update.

Answer: C

Question: 6

A system administrator checks the installed firmware versions on an Itanium system running HP-UX and discovers that the status is unknown. What could be the issue?

- A. Itanium systems are not supported in HP SIM.
- B. HP-UX is not supported in the Version Control Architecture.
- C. The Version Control Agent (VCA) is not installed on the Itanium server.
- D. The trust relationship between the Itanium system and the CMS is not set up.

Answer: B

Question: 7

As a system administrator you notice that on the 'all systems' list in HP SIM, the status for some of the software versions are not available. What is a possible cause? Select TWO.

- A. The software status polling task has not yet run.
- B. The trust relationship is not set correctly on the managed server.
- C. There are insufficient user rights to view the software status of these servers.
- D. OpenSSH is not configured properly on the Central Management Server and the managed device.
- E. The version control agent is pointing to a version control repository manager not installed on the HP SIM server.

Answer: A, B

Question: 8

What kind of task is data collection?

- A. A polling task
- B. A control task
- C. An event task
- D. A notification task

Answer: A

Question: 9

The system administrator opens the tools menu, and selects the command line tools and only finds Windows based tools. However, when consulting the documentation, it shows UNIX/Linux commands as well. What could be a reason?

- A. HP SIM is not licensed for UNIX/Linux tools.
- B. HP SIM only discovered Windows systems.
- C. The UNIX/Linux extension pack is not installed.
- D. The UNIX/Linux tools in HP SIM are not enabled.

Answer: B

Question: 10

You want to remove a user from the HP SIM database. What should you do with the tasks owned by that user?

- A. Drag and drop the tasks to another user.
- B. Remove or reassign the tasks before the user is removed.
- C. Nothing, they get automatically assigned to the administrator.
- D. Create a copy of these tasks and save under another users name.

Answer: B

Question: 11

You have finished installing Vulnerability and Patch Management (VPM) on an HP System Insight Manager server. Once the server is rebooted, which step should you perform next for VPM to function correctly?

- A. Run a VPM scan on all managed servers to set a baseline.
- B. Run `mxtool -a -s VPM` to compile the newly installed tool into HP SIM.
- C. Configure the acquisition of vulnerability and patch updates in HP SIM.
- D. Contact the Microsoft and RedHat website to configure the download of vulnerability and patch updates.

Answer: C

Question: 12

When performing a Physical to Virtual (P2V) migration, what are some of the prerequisites for the source physical machine? Select TWO.

- A. Assign a static IP address to the source physical machine.
- B. Ensure that the VMM agent is installed on the source physical machine.
- C. Verify that the source physical machine contains only RAID5 disk arrays.
- D. Temporarily disable the management agents on the source physical machine.
- E. Verify that all partitions on the source physical machine have a valid file system and are in a healthy state.

Answer: D, E

Question: 13

You want to deploy the VMM agent from the CMS to manage Microsoft Virtual Servers. What should you install first on the VM host server?

- A. IIS
- B. OpenSSH
- C. Virtualization layer
- D. Secure Sockets Layer

Answer: B

Question: 14

You notice that a Microsoft Windows 2000 server is discovered by HP SIM and appears on the HP SIM home page but not in the PMP License Administration page. Why?

- A. The PMP sample rate is too high and PMP has not yet discovered this server.
- B. This server has HP Insight Management Agents version 6.2, which reports the wrong operating system name.

Pass4SureOfficial.com Lifetime Membership Features;

- Pass4SureOfficial Lifetime Membership Package includes over **2500** Exams.
- **All** exams Questions and Answers are included in package.
- **All** Audio Guides are included **free** in package.
- **All** Study Guides are included **free** in package.
- **Lifetime** login access.
- Unlimited download, no account expiry, no hidden charges, just one time \$99 payment.
- **Free updates** for Lifetime.
- **Free Download Access** to All new exams added in future.
- Accurate answers with explanations (If applicable).
- Verified answers researched by industry experts.
- Study Material **updated** on regular basis.
- Questions, Answers and Study Guides are downloadable in **PDF** format.
- Audio Exams are downloadable in **MP3** format.
- **No authorization** code required to open exam.
- **Portable** anywhere.
- 100% success **Guarantee**.
- **Fast**, helpful support 24x7.
